

KARL-JOHAN

The impressive Karl-Johan tiled stove with its richly ornamented crown is perfect for older style properties like houses from the turn of the century or old flats downtown.

To us, the tiled stove is so much more than just a fireplace and heat source. It is a magnificent piece of furniture that will create comfort in your home for generations to come, spreading pleasant warmth and light from the flaming fire. A Gabriel tiled stove is timelessly beautiful, yet manages to meet all contemporary requirements for efficiency and function.
